## BX-5000 / BX-DIV5000

### OPTIONAL: Profili a terra BX-PT-01 - Floor profiles BX-PT-01 - Bodenprofile BX-PT-01

- A - Posizionare il profilo inferiore portavetro sostenuto dagli appositi piedini nelle due estremità e nella zona centrale, quindi fissarlo momentaneamente con del nastro adesivo
- B - Infilare la guida a terra nella sede del profilo, posizionarla e fissare il tutto con il silicone
- A - Place the lower glass holding profile with the appropriate feet on the two ends and on the central area, then temporarily fix it with some tape
- B - Insert the ground rail on the frame housing, place it and fix everything with silicon
- A - Das Bodenprofil, welches von den Auflagern geführt wird, an beiden Enden vorübergehend mit Klebeband fixieren
- B - In das Profil einsetzen, positionieren und mit Silikon fixieren

- Fissaggio vetro fisso laterale con profili optional
- O - Posizionare il profilo laterale di fissaggio in bolla quindi fissarlo
- P - Infilare la guarnizione e successivamente il vetro
- Placing the side fixed glass with OPTIONAL profiles
- O - Place the side fixing profiles with bubble level and fix them.
- P - Insert the gasket and then the glass
- Seitenteile mit Profil fixieren (optional)
- O - Profil seitlich ins Lot bringen und anbohren
- P - Zuerst Dichtung dann das Glas einfügen

TIPI DI FISSAGGIO LATERALE OPTIONAL  
KINDS OF OPTIONAL SIDE FIXING  
MONTAGEARTEN SEITLICH OPTIONAL V

- Posizionare il vetro fisso laterale sul profilo portavetro, fissarlo in bolla e siliconare
- Place the side fixed glasses on the holding glass profile, fix them with bubble level and silicon
- Seitenteile auf Profil positionieren, ins Lot bringen und mit Silikon fixieren

- C - Applicare il profilo di copertura nella zona dove non c'è il vetro fisso
- D - Mettere il tappo di copertura C-60 nella parte iniziale del profilo a terra quindi siliconare
- C - Apply the covering profiles in the areas which will not hold the fixed glass
- D - Apply the endcap C-60 and fix with silicon
- C - Abdeckungen dort anbringen, wo keine Seitenteile sind
- D - Endkappe C-60 zwischen den Profilen positionieren und mit Silikon fixieren

## BX-5000 / BX-DIV5000

- Infilare gli stopper BX-5000-C30, gli attivatori Soft-close (optional) e le piastre di fissaggio per morsetti a muro BX-5000-C90 nella sede del binario.
- Fissare i 2 agganci BX-5000-C90 a muro ed infilare i binari, poi avvitare i grani di tenuta.
- Insert the BX-5000-C30 stoppers, the Soft-close activators (optional) and the fixing plates for wall clamps BX-5000-C90 in the tracks housing.
- Fix the 2 BX-5000-C90 wall hooks and insert the track, then screw the sealing grub screws.
- Stopper BX-5000-C30, Soft-close Aktivatoren und Befestigungsplatte für Wandhalten BX-5000-C90 in die Laufschiene einführen.
- Die beiden Auflager BX-5000-C90 an der Wand fixieren, die Laufschienen einführen und mit Schrauben fixieren

BX-5000-C90

Fissare il binario ai morsetti laterali  
Fix the rail to the lateral clamps  
Befestigen Sie die Schiene an den Seitenklemmen

**N.B.**  
Avvitare le 2 viti a muro  
Fix the 2 screws into the wall  
Befestigen Sie die 2 Schrauben in die Wand

BX-5000-C90 DX

BX-5000-C90 SX

Smontare il blocchetto per avvitare le 2 viti a muro  
Remove the block to fix the 2 screws into the wall  
Entfernen Sie den Block, um die 2 Schrauben in die Wand zu befestigen

**ATTENZIONE:**  
Stabilire la posizione esatta fissando provvisoriamente il binario sul vetro

**WARNING:**  
Determine the exact positions by temporarily fixing the tracks on the glasses

**ACHTUNG:**  
Genauere Position beachten und vorübergehend die Schienen auf das Glas setzen

BX-5000-C30 SX

BX-5000-C30 DX

BX-5000-C30 (2x)

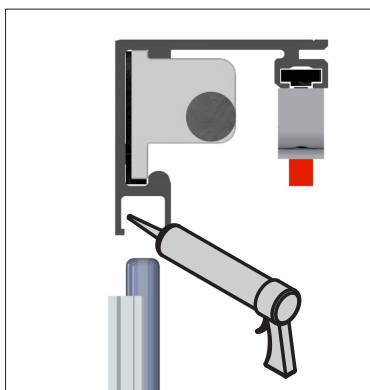

## BX-5000 / BX-DIV5000

- Per set 3 e set 4 montare a vetro il supporto C-90 mediante la piastrina C-81
- For set3 and set4 mount the clamp C-90 using glass connector plate C-81
- Für Set 3 und Set 4 die C-90-Halterung mit der Platte C-81 befestigen

- Infilare le piastrine di fissaggio, gli stopper ed i Soft-close nella sede del binario
- Insert the fixing plates, the stoppers and the Soft-close in the track profile
- Setzen Sie die Befestigungsplatten, die Stopper und den Soft-Close in den Laufschiene ein

- Fissare il vetro laterale con silicone
- Fix the side panel with silicon
- Seitenteil mit Silikon fixieren

**BX-5000 / BX-DIV5000**

- Regolare e fissare attivatore Soft-close sulla pinza
- Adjust and fix the Soft-close activator on the clamp
- Einstellen und Befestigen Soft-close Mitnehmer

- Montare i carrelli C-10 sul vetro mobile ed avvitare
- Assembly the C-10 carriages on the sliding glass and screw
- Die Rollen C-10 an der Schiebetür montieren und anschrauben

- Applicare del grasso nella svasatura dei fori delle pinze prima di stringere le viti, altrimenti il serraggio non verrà eseguito correttamente
- Please apply a drop of grease in the countersunk hole of the clamps, for a guaranteed tightening of the screws
- Bitte tragen Sie ein wenig Fett in die Senkbohrung der Klemmen auf, damit die Schrauben garantiert fest sitzen

- ATTENZIONE:**  
 Infilare l'anta nella guida a terra  
**WARNING:**  
 Insert the door on the ground rail  
**ACHTUNG:**  
 Glastür in die Bodenführung einsetzen

## BX-5000 / BX-DIV5000

4mm      13mm

Regolare l'altezza dell'anta tramite l'eccentrico delle ruote portanti.  
Adjust the door height through the cam fixing of the bearing wheels.  
Höhenverstellung der Tür durch Nocken an den Rollen.

2)  
Bloccare grano laterale  
Fix the lateral screw  
Befestigen Sie den seitlichen  
Gewindestift

1)  
Regolare l'antiscoppio  
Adjust the antijump  
Aushebeschütz einstellen

grano M3x5  
1,5 mm

vite M4x20  
2mm

0,5 - 1mm Aria - Gap - Spalt

### REGOLAZIONE SOFT-CLOSE BX-5006 OPTIONAL ADJUSTMENT SOFT-CLOSE BX-5006 OPTIONAL - EINSTELLUNG DER SOFT-CLOSE BX-5006 OPTIONAL

Pre caricare gli ammortizzatori  
Move the soft-close pins in loaded position  
Positionieren soft-close Mitnehmer in der gespannten Position

Chiusura - Closing - Schließung

Regolare la posizione dell'ammortizzatore e dello stopper in base alla larghezza del vano.

Adjust the position of the soft-close mechanism according to the opening width

Selbststeizug und Stopper nach Lichterbreite einstellen

Apertura - Opening - Öffnung

N.B: Lo stopper deve fermare l'anta prima della fine della corsa dell'ammortizzatore, montarlo in modo che l'anta, in posizione di apertura o in posizione di chiusura, appoggi sullo stopper.

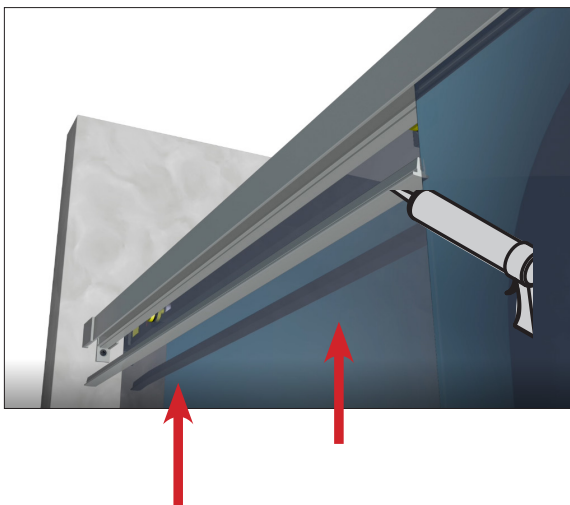

The stopper must stop the door before the end of the soft-close movement. Adjust the stopper so that the door touches it in opening and closing situation.

ZU BEACHTEN: der Stopper muss die Bewegung der Tür beenden nachdem der Selbststeizug betätigt wurde, so montieren, dass die offene als auch die geschlossene Tür den Stopper berührt.

**BX-5000 / BX-DIV5000**

- Regolare lo stopper
- Adjust the stopper
- Stopper einstellen

- Fissare il profilo chiusura sede vetro fisso con silicone
- Assemble cover profile for fixed glass channel with silicone
- Sichtschutzprofil mit Silikon befestigen

- Fissare la veletta con le apposite clip.
- Assemble cover profile with delivered clips.
- Abdeckung mit den entsprechenden clip.

**SET 1**

**BX-5000-C20 (1x)**

- Connettore ad angolo per binario
- Corner connector for track profile
- Winkelverbinder Laufschiene

**SET 3 - SET 4**

**BX-5000-C81 (1x)**

- Piastrina attacco a vetro
- Plate glass connector
- Platte Glashalter
